ENERGY SOLUTIONS

For Industrial Buildings & Facilities

ABOUT DAIKIN APPLIED ASIA & OCEANIA

Engineered for Performance and Flexibility

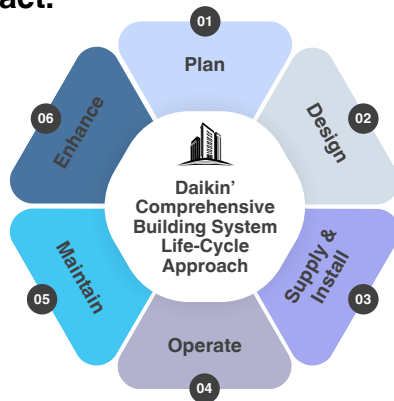

- Daikin Group is global leaders in the Air Conditioning sector.
- 96,000 employees globally.
- Over 100 Production manufacturing sites across the world.
- Providing technological solutions in more than 170 countries in the world.
- Daikin Applied Asia & Oceania is a subsidiaries under Daikin Industries Ltd Group (“Daikin”) of companies.

Enhance energy efficiency, optimize operating costs and minimize environmental impact.

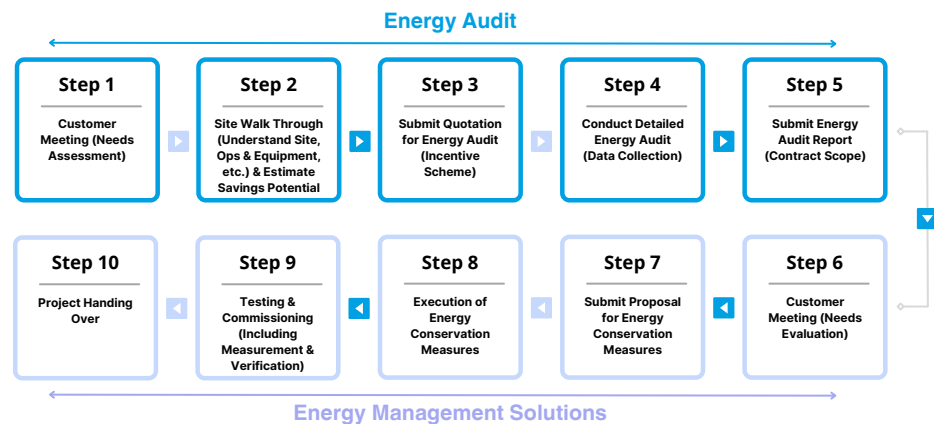

Your industrial buildings and facilities do not have to be new to be energy efficient.

Existing systems can be serviced, retro-commissioned or retrofitted as part of the maintenance or refurbishment programs to improve energy efficiency.

Roadmap to energy efficient industrial buildings & facilities.

Our Energy Management team customizes the delivery process for each client.

Our diverse knowledge and experience in energy efficiency for industrial buildings and facilities includes various segments such as:

Leading Technologies in Air-Conditioning and Intelligent Controls

Daikin provides complete energy and sustainable technology products, services and solutions, covering the full spectrum of heating, ventilation, air conditioning, industrial refrigeration, heat recovery and advanced controls under our world-renowned brand names of solutions.

Comprehensive Integrated Air Conditioning Solutions:

Daikin produces some of the most robust HVAC equipment and controls in the market today.

Comprehensive Programmable Logic Controllers and Integrated Building Management System:

Daikin' Integrated Building Management System ensures that all your building systems – HVAC equipment, lighting, security management and fire protection – work together as a cohesive unit. We also offer a comprehensive line of powerful programmable logic controllers to meet the demands of your facilities.
